Check your kit at least annually, for any food, water, batteries, or other items that may need to be replaced or have expired.

Consider also building a mobile “go-bag” version of your emergency kit to take with you in case you need to evacuate to a shelter or other location. When building a “go-bag,” remember to include necessary pet supplies, such as collars and leashes, a 3-5 day supply of food and water, bowls, litter boxes, and a week’s supply of medications that your pet may be taking, including instructions (in case you and your pet are separated), as well as copies of your pets’ vaccinations, medical records and prescriptions in a clean plastic bag or waterproof container.
